WORKING EXPERIENCE

HiSEVEN Sdn Bhd

April 2024 - Present

Executive Frontend Developer

Key Achievements

- Developed a self-configurable news crawler interface, allowing users to manage sources and categories without backend dependency, improving user control and content accuracy.
- Designed and implemented a static, multilingual website using Next.js and WordPress APIs, improving website reliability by 50% and reducing maintenance time by 30%.
- Contributed to building a custom Ant Design component library, accelerating frontend development by 40% and ensuring consistent design across projects.
- Transitioned the company website to a static architecture, improving load times by 40% and reducing downtime by 50%.

Responsibilities

- Delivered responsive, scalable frontend interfaces using Next.js and Tailwind CSS.
- Worked closely with designers to transform UI/UX wireframes into fully interactive, pixel-perfect web pages.
- Assisted in creating reusable components, ensuring alignment with design systems and best practices.
- Collaborated with marketing to integrate dynamic blog content using WordPress APIs, enhancing content delivery and user engagement.

Avexis Solution Sdn Bhd

July 2023 - October 2023

Intern Trainee of Frontend Developer

Key Achievements

- Assisted in migrating a crypto system to Angular, enhancing frontend performance by 30%.
- Contributed to the development of modular Angular Material components, reducing development time for new features by 20%.

Additional Contributions

- Designed Figma prototypes for a warehouse check-in app, contributing to improving employee attendance tracking.
- Supported UI/UX design using Figma, creating prototypes and gathering client feedback for future development.

Responsibilities

- Collaborated on migrating the crypto system to Angular, focusing on optimizing frontend architecture.
- Developed responsive UI components with Angular Material.
- Assisted in Figma prototyping and participated in UI/UX design discussions.
